This is a set of guidelines to authors intending to participate in the Seventh International Kharkov Symposium on Physics and Engineering of Microwaves, Millimeter and Submillimeter Waves (MSMW'10) and Workshop on Terahertz Technology (Teratech'10), Kharkov, Ukraine, June 21-26, 2010. The instruction is to help prepare the camera-ready copy of your Papers. All Papers must be written in English. Since the "Proceedings" will be prepared directly from the Papers supplied by authors, it is important that authors prepare electronic manuscripts, which are identical in format and need no further editing. Therefore careful preparation is required. Authors are asked to submit 3-page electronic manuscript including the text, references, figures, graphs and diagrams. Electronic submission is mandatory. The papers should be prepared in the MS-Word formats. Use single space 10-point size Times Roman font on A4 size sheet (297 mm by 210 mm), with 25-mm top, left and right margins. Bottom margin should be 35 mm. The title should be centered in bold capital letters (12-point size Times New Roman font) 25 mm from the top of the first page. The author name(s), complete affiliation(s), full address(es) and phone/fax/e-mail data should be two lines below the title. The text should start two lines below this. Figures, graphs and diagrams should be of an easily readable size. The topic number (see Scope) should be indicated in the cover letter.

Papers should reach the Program Committee before March 1, 2010 in electronic form (hard copy is not needed) both in doc. and pdf. formats. Authors should note that the fax copies of Papers will not be accepted.

As the IEEE technical co-sponsorship is expected, all the authors are requested to fill in the IEEE Copyright form. This form is to be submitted together with the paper.
